

Aladdin Supplies and Extra Parts

The many improvements made in the Aladdin from time to time, have necessitated new designs of certain parts that could not always be made interchangeable in all the different models. Therefore, to make it convenient for you to order supplies and extra parts for your customers, we show herein parts that fit the different models of the Aladdin.

In ordering, it is well to always specify the model of the Aladdin, as well as the finish. The model number appears on the button of wick ratchet of Nos. 5, 6, 7, 8, 9, 10, 11, 12 and Model A. For extra parts for Aladdin lamps of models previous to Model 5, send old part in for duplication, if you cannot determine what to order from information given.
